

CHRISTMAS TREE COLLECTION

Christmas trees are collected in early January each year (refer to your Residential Collection Calendar).

GUIDELINES:

- Ornaments & tinsel must be removed
- No tree bags
- Trees longer than 8 feet or heavier than 50 lbs must be cut in half
- Tree must be accessible to driver and is not snow-covered or stuck in ice
- **Keep safety in mind** – ensure tree does not impede traffic or snow removal

Trees WILL NOT be picked up during regular compost collection – they are collected on a separate truck.

To ensure pickup, your tree must be at curbside by **7:00 a.m.** on the date indicated on your collection calendar.

All routes will be completed within one week and not necessarily on your regular collection day. Contact IWMC by January 17th if your tree was missed by collection drivers.

DEC 2016

NOTE: Please note that during the month of January, trees from households may be taken to any Waste Watch Drop-Off Center, FREE OF CHARGE.
